- Materials:
.010" Thick Tin Plated SH (.5lb./s.f.)
.020" Thick Aluminum (.3lb./s.f.)

- All patterns on these pages represent a 2x2 panel. 2x4 panels are also available. These are all available in a flat lay-in panel. For nail-up applications, a 2x4 panel is available.

- All cornices and girder nosing come in a nom 48" length. Cornices are shipped flat and must be bent in field to achieve dimensions shown.

- Panels are available in a mill finish, primed, or factory painted to your specifications, or it may be painted on jobsite. Bright finishes in brass, copper and chrome are another option.

- Perforated panels and insulation/acoustical backer panels are available for improved sound performance.

- 2x2 and 2x4 lay-in panels are easy to install and are designed for use with standard 15/16" T-Bar grid. Backerboards and hold down clips (4 per panel) are recommended for a smooth appearance and increased rigidity.
